Harambee,

Dear sis Madam

RE: Application for bursary.

I am writing this letter to request for your support, to support me in school fees, so that I can continue well with my studies to achieve a good result and get a good job. I will use the opportunity well and study. I will work hard in whatever am doing.

I have five siblings in my home, one in secondary and other four in junior secondary. All of us at home we need our parent to provide for us the basic needs.

My parents practice farming as the main source. In home we rely on farming to earn a living. The piece of land that we are using is 1.5 acre. Crops obtained from the farm are mainly use for domestic purposes.

I will appreciate to get the opportunity and I will work hard so that I can help my younger siblings.

Yours sincerely

Joy
